

## CLAIM AMENDMENTS

I claim:

1. (Canceled) A method for controlling fungal infestation of plants comprising the steps of:

selecting a composition comprising garlic extract and a liquid carrier;  
applying said composition to a plant.

2. (Canceled) The method of claim 1 wherein said composition contains between approximately 10% to 30% of garlic extract by volume.

3. (Canceled) The method of claim 1 wherein said carrier in said composition consists essentially of water.

4. (Canceled) The method of claim 2 wherein said carrier in said composition consists essentially of water.

5. (Canceled) A method for inhibiting fungal growth in a host medium comprising the steps of:

selecting a composition comprising garlic extract and a liquid carrier;  
applying said composition to said host medium.

6. (Canceled) The method of claim 5 wherein said composition contains between approximately 10% to 30% of garlic extract by volume.

7. (Canceled) The method of claim 5 wherein said carrier in said composition consists essentially of water.

8. (Canceled) The method of claim 6 wherein said carrier in said composition consists essentially of water.

9. (Canceled) A fungicide consisting essentially of garlic extract and a inert liquid carrier.

10. (Canceled) The method of claim 9 wherein said composition contains between approximately 10% to 30% of garlic extract by volume.

11. (Canceled) The method of claim 9 wherein said carrier in said composition consists essentially of water.

12. (Canceled) The method of claim 10 wherein said carrier in said composition consists essentially of water.

13. (Canceled) A method for inhibiting fungal grown in turf grass comprising the steps of:

selecting a composition comprising garlic extract and a liquid carrier;  
applying said composition to said turf grass.

14. (Canceled) The method of claim 5 wherein said composition contains between approximately 10% to 30% of garlic extract by volume.

15. (Canceled) The method of claim 5 wherein said carrier in said composition consists essentially of water.

16. (New Claim) A method for treating plants and plant growth media for inhibiting fungal propagation comprising the steps of:

selecting a composition consisting essentially of garlic extract in an aqueous liquid carrier;

applying said composition to a plant or its growth medium.

17. (New Claim) The method of claim 16 wherein said garlic extract constitutes between approximately 10% to 30% of said composition by volume.

18. (New Claim) A liquid fungicide consisting essentially of garlic extract and water.

19. (New Claim) The fungicide of Claim 18 wherein said garlic extract constitutes between approximately 10% to 30% of said fungicide by volume.

20. (New Claim) A method for preventing the propagation of the fungal species of Pythium, Phytophthora, Rhizoctonia and Fusarium comprising the steps of:

selecting a composition consisting essentially of garlic extract in an aqueous liquid carrier;

applying said composition to a plant or its growth medium.

21. (New Claim) The method of claim 20 wherein said garlic extract constitutes between approximately 10% to 30% of said composition by volume.

Respectfully submitted,
